

EQUIPMENT UTILIZATION MANAGEMENT (TELEMATICS)

Access innovative GPS monitoring solutions through the Total Control® dashboard and take your equipment utilization to the next level.

- ▶ Over 90% of United Rentals machines are Telematics enabled
- ▶ Easy to use dashboard with live data and OneClick actions
- ▶ Include customer-owned fleet in addition to rentals
- ▶ Set alerts on fuel usage, battery levels, over or under-utilization, and more
- ▶ Reduce theft/unauthorized use of equipment with GPS tracking and geofencing
- ▶ Proactively manage your fleet with “just-intime” maintenance notifications

Optimize your next project with equipment insights — save time, reduce costs, and enhance overall efficiency.
