EQUIPMENT ACCESS MANAGEMENT

Manage equipment access to prevent unauthorized use, reduce risk of theft, and control asset damage through Total Control® and the United Rentals Mobile App.

- Limit who can operate equipment

- Gain access to equipment through RFID badges or numeric pin codes

- Remotely lock and unlock machines

- Ensure only approved/trained operators have access to equipment

- Promote jobsite safety and optimize productivity

- Track and report utilization by operator or business unit

Secure your next project with Equipment Access Management — promote safety on the jobsite and protect valuable equipment.
